Drawing on her own research, she elucidates the experiences of parents whose children have been diagnosed with MSBP. It comprises: . The very real sense of loss can generate intense feelings of grief, sadness, anger, and even shame. The science underpinning the condition is seriously flawed, they say, and claims of MSBP can be made with little supporting evidence - sometimes by people with scant knowledge of the condition or no medical training at all. I was brought up in a very large Middle Eastern family, full of aunts, uncles and cousins. I spent my solitary Game Boy sessions for real games, preferably outside, preferably physical and preferably fun.
