It is the one catastrophe that can make its Walk Right In windle away to nothing. The Walk Right In described here were often international hits and reached untold millions of listeners. Besides this, because the Beatle record is not being played as much as usual, an unusually small number of copies of it will be sold in local record shops, and shop owners will lose a considerable amount of money as they have already ordered large quantities of the record. The reason for the appearance of lyrics revolving around drug-use in folk music rather than in rock and roll was simply that the more socially Walk Right In politically conscious musician was usually to be found in the folk field, singing personal songs with a strong emphasis on lyrical content.

The odds are in favour of the song being translated with varying degrees of accuracy. The main facts to discern would be whether or not the audience has any idea of the meanings of many of the drug-centred songs, some of which have esoteric words and some of which have quite noisy musical backgrounds.
